Skills

Leadership & Management: Team growth and mentorship ▪ Hiring and onboarding ▪ Performance reviews ▪ Agile & Scrum ▪ Stakeholder management

Technical Expertise: React ▪ Next.js ▪ React Native ▪ TypeScript ▪ REST APIs ▪ Redux ▪ Tailwind ▪ SASS ▪ NPM Packages ▪ Storybook ▪ Ruby on Rails (support) ▪ WebSockets ▪ MQTT ▪ Firebase

Testing & Quality: Performance & Maintainability ▪ Unit ▪ Integration ▪ Visual Regression ▪ E2E ▪ Jest ▪ React Testing Library ▪ Percy ▪ Playwright ▪ Cypress

Tooling & CI/CD: Husky ▪ GitHub Actions ▪ Docker ▪ CI/CD Pipelines

Languages

Portuguese — Native/Bilingual

English — Fluent

Spanish — Conversational

Italian — Basic

Education

Msc in Informatics and Systems,
Polytechnic University of Coimbra -
ISEC

2017 – 2021

Thesis: *UX for Mobile Apps that Interact with External Equipment (3 published papers in international conferences)*

BSc in Informatics Engineering,
Polytechnic University of Coimbra -
ISEC

2013 – 2017 | Coimbra, Portugal

I am currently a **Senior Frontend Engineer at XING**, a strategic move I made to master enterprise-level engineering standards and high-scale collaboration. I am now looking into going back to a **management** position here I can keep hands-on with tech while helping teams grow. With over **10 years of experience** building modular web and mobile apps with reusable component systems that enable cross-team scalability, I've learned that every challenge has more than one good solution, and I love finding creative ways to solve them. I'm always bringing new ideas to the table, whether it's improving processes, refining UX, or rethinking how we work and evolve as a team. I enjoy mentoring, leading by example, and fostering a great work environment.

Professional Experience

Senior Frontend Engineer, New Work SE | XING

05/2025 – Present | Porto, PT

- Develop and maintain new features for XING's marketing platform, built with React.
- Write and maintain comprehensive test coverage, including **unit, integration, visual regression**, and **end-to-end tests**, using **Jest, Percy and Playwright**.
- Collaborate closely with product and design teams to ensure alignment on priorities and scope.

Head of Frontend & Mobile | Team Leader, LoopOS (part of The Loop Co.)

10/2021 – 05/2025 | Coimbra, PT

- Led a team of 5–12 frontend and mobile developers, focusing on mentoring, career development, and performance analysis.
- **Owned hiring and onboarding processes**, improving ramp-up time for new team members by standardizing training and documentation.
- Introduced technical practices such as **TypeScript adoption, CI/CD validation with Husky**, and **reusable boilerplates**.
- Created the company's **first design system** (React, Storybook) enabling multiple teams to build solutions with reusable frontend building blocks.
- Still kept hands-on coding responsibilities, especially for complex features and urgent fixes.

Frontend Web and Mobile Developer, The Loop Co.

03/2020 – 10/2021 | Coimbra, Portugal

- Developed web and mobile apps for clients including Sonae, Red Cross (COVID scheduling & management platform), Ticketline, National Pharmacies of Portugal.
- Collaborated with backend and QA teams on requirements, implementation, and testing of critical product features.

Invited Assistant Professor,

Polytechnic University of Coimbra (ESTGOH & ISEC)

10/2021 – present | Coimbra, Portugal

- Taught courses in **Programming Fundamentals (C)**, **Web Programming (HTML, CSS, JavaScript, ReactJS)**, and **Scripting Languages (JavaScript, ReactJS)**.

Mobile Developer, Spotside (former Crossing Answers & Luope)

10/2016 – 03/2020 | Coimbra, Portugal

- Delivered mobile apps for the vending sector, municipalities (Penela, Alter do Chão, Sesimbra) and INCM.
- Built with React Native, NativeScript, integrated with APIs, MQTT, WebSockets, Firebase.
- Frequently the sole mobile developer on projects, owning development from start to release.
- **Internship project:** developed a vending machine solutions app with NativeScript, which led to a full-time role.
